**Subject:** Redistricting feedback

[NOTICE: Caution: External Email]

I cannot attend this weekend, but would like to know what sort of feedback/comments are available.

I am an Encinitas resident and live on Tennis Place. I see a lot of comments that are from people and organizations that are not residents and hope that you filter those out.

Please register this email as a comment to the project team involved with the redistricting / remapping process and reply with confirmation.

I am currently in "District 3" and strongly disagree with current district maps as drawn as adopted in Nov. 2017 . These were, in my opinion, secretively and corruptly made and agreed to by a group of extreme Democrat party operatives as documented in the Coastal News article below.

<https://thecoastnews.com/district-map-quagmire-rekindled-in-encinitas-with-fresh-misconduct-claims/>

District 3, as currently mapped, purposely dilutes communities west of 5 and in "old encinitas" with large numbers of Democrat registered/leaning Cardiff. (5500+ vs 2200 according to the article).

Further, our community, Pacific Ranch, has a community marker on the other side of the street that says "Colony Olivenhain". To put our community into Cardiff is a violation of the Fair Maps Act. Further evidence, our kids go to Park Dale Lane Elementary instead of Cardiff.

I feel that the last redistricting was tainted by misconduct by an ex-council person who cared for their dreams more than Encinitas residents.

This unfair process caused the whole city council and decision making process to lurch too far left Democrat/Socialist Democrat Party. I am an Independent. These council members do not represent our neighborhood and family, as a direct result of the gerrymandering with the last election maps. The same city council is making big left-leaning decisions that my family does not agree with. We lost our balance as a community. We need to get it back. There are a lot of good people on allsides, but a single voice is not how this is supposed to work.

Well, thanks for the auto-reply, but I'm interested in a map of the actual communities, not the "districts". Maybe you could forward my email to someone more appropriate.

Thank you for your email. History of Districting in Encinitas. Back in 2017, the City transitioned from an "at large" voting system to Districting and created four voting districts and an elected Mayor. **Please refer to the City of Encinitas website for Redistricting.** The web provides information involving the 2017 process and the most recent activity involving redistricting and its process. It also includes the existing district map that was adopted back in 2017.

Please note that the City will be conducting an in person Workshop for Redistricting on Saturday, 10/16/21 between 10:00 – 2:00 p.m. Every 10 years new census data is released and we are required to assess the existing district makeup and review for compliance with current laws. Demonstrations on mapping along with consultant demographers will be present to discuss and assist with mapping operations. Please let me know if you have any further questions once you have had an opportunity to visit the website. Thank you.

[NOTICE: Caution: External Email]

Greetings,

and apologies if I've sent this to the wrong dept. (yours seemed most likely to be correct)...

As a 60-year resident of Cardiff-by-the-Sea, I've never known the exact boundaries of the five communities that got incorporated into the City. Do you have \*good\* map showing them, or at least a written description of the borders? What triggered this is that I've been doing a lot of walking around the City recently, and I'm a bit confused as to how "Encinitas Ranch" fits in, whether it's New Encinitas or Leucadia or...?

Thanks in advance for any help (even if that's just forwarding this to the right person).

Sincerely,

Eris Simpson
