

Proposed Street Typology

Suburban Connectors (Prime & Major) connect neighborhoods & destinations across longer distances (beyond typical bike/walk distance).

Suburban and Urban Village Collectors provide mobility in, out & through neighborhoods & destinations.

Residential Neighborhoods provide local access to residential streets. These roads are often within walksheds of key destinations.

Residential Local Streets – Unclassified provide direct access to individual residences.

Special Designation Corridors, comprised of El Camino Real Suburban Corridor and Coast Highway 101 Urban Village Corridor, provide mobility along Coast Highway 101 and the El Camino Real Specific Plan Area.
