

## Citizen Participation Plan Summary Report:

The City of Encinitas

Case # MULTI-003985-2020; DR-003986-2020; CDPNF-003987-2020; CPP-003988-2020 (18-094 DR/CDP)

### Verdi Avenue Pedestrian Rail Undercrossing Project

#### **Public Workshop: June 2, 2021**

The meeting was held from 6:00 PM to 7:00 p.m. by utilizing a Zoom Webinar with the community. Lauren E. Kirk hosted the public workshop with assistance from his design team members Aaron Rubio, Gheorghe Rosca and Mike Peltz. Other City staff in attendance included Lilian Doherty, Jill Bankston and Andrew Maynard. Roughly 15 residents logged onto and attended the zoom webinar. The meeting began with Lauren E. Kirk introducing the project and the design team. Lauren gave background and history of the project at the City. The design team then explained specific elements of the proposed design improvements. The team displayed a PowerPoint presentation as they explained the project information and proposed design features. After the team finished the presentation, a question and answer session with the public was conducted by the design team. All citizens left after the questions were answered or compiled.

18 questions were raised during the discussion.

**Question No. 1:** Will this session be recorded?

**Response:** Yes.

**Question No. 2:** What are the dots on San Elijo by the crosswalks?

**Response:** They are called shark teeth and they are for indicating to the driver the upcoming crosswalk.

**Question No. 3:** Can you explain the funding deficit?

**Response:** There are many funding needs for capital projects and revenues have been down due to COVID. We will be seeking grant funding to move this project forward.

**Question No. 4:** Is there a projected cost for this project as currently designed?

**Response:** Approximately \$9 million.

**Question No. 5:** When do you think you will start and end?

**Response:** Construction start depends on funding, and the duration will be approximately 18 months.

**Question No. 6:** Is there was an aid for blinking lights to help us cross San Elijo

**Response:** There will be a flashing beacon on San Elijo to facilitate pedestrian crossings.

**Question No. 7:** Who should we talk to in order to help with funding?

**Response:** You can send any relevant information to project manager Lauren Kirk at [lkirk@encinitasca.gov](mailto:lkirk@encinitasca.gov). Also, please feel free to send your support for the funding of this project to

Councilmember Joy Lyndes at [jlyndes@encinitasca.gov](mailto:jlyndes@encinitasca.gov). We are all working together to find funding for this project, and your comments and support are always valuable.

**Question No. 8:** Is there a plan for parking along San Elijo Ave at the crossing entrances? I expect people will want to park and cross to the beach.?

**Response:** The original intention was to keep the parking as is along San Elijo.

**Question No. 9:** Will landscaping continue through to Montgomery? It seems like landscaping has been waiting for future additions along the rail trail.

**Response:** We will be keeping the landscaping to the project area.

**Question No. 10:** So what are the next steps. How can we help?

**Response:** The next step is to finalize the plans and secure construction funding.

**Question No. 11:** Can you share how this recording will be available?

**Response:** You can access the recording here: <https://www.youtube.com/watch?v=TytHP6Aq3Vg>

**Question No. 12:** How can you justify this crossing that only gets people to the Beach when NW Leucadia has no crossings to reach the beach, post office, restaurants, parks, and public transportation for the  
Many apartment dwellers who need public transportation require safer access and minimize illegal crossings.

**Response:** One of the projects that staff is recommending for funding for next year is an at grade crossing corridor study so that we can bring additional crossings to city residents in a more cost effective manner. This is something that has been championed by the council members and we are excited to partner with the Federal Agencies, NCTD, and CA CPUC to see if we may have some opportunities to bring crossings that are at grade to fruition.

**Question No. 13:** But, we already did a study! It was called the Coastal Working Group something or other.... Please don't delay. Leucadia is long overdue.

**Response:** The Coastal Livability Working Group was a vision study that looked at mobility and community impacts. The next study needed is a technical study to provide evidence that we can create safe crossings at grade.

**Question No. 14:** How does Verdi fit into the "regulatory hurdle?"

**Response:** Verdi is an undercrossing so this project is able to be approved because we created a safer method for crossing under the tracks, what we are looking for in the corridor is crossing at grade.

Emails were submitted to the City prior to and after the CPP meeting and were compiled. The main areas of these questions focused on budget, the basic design choices on South Coast Highway 101, location questions, and traffic flow concerns. These emails were either answered during the webinar presentation given and were addressed in this report or were responded to in the attached emails.

There was a general acceptability of the proposed pedestrian improvements as presented. The video of the entire meeting can be viewed at:

<https://www.youtube.com/watch?v=TytHP6Aq3Vg>

## Lauren Kirk

---

**From:** Dianna Nunez <nowleucadia@gmail.com>  
**Sent:** Wednesday, June 2, 2021 11:09 AM  
**To:** Lauren Kirk  
**Subject:** Verdi Avenue Pedestrian Rail UnderCrossing CPP  
**Attachments:** NOW Petition Signatures\_Part 1.pdf

[NOTICE: Caution: External Email]

Good morning Ms. Kirk,

I would like to request a copy of the proposed plans for the Verdi crossing that will be presented at the CPP this evening.

As a matter of record, I am requesting that the attached petition collected last year regarding this issue be made part of this CPP record. Due to the size of the petition, I will send additional emails.

Thank you.

Kind regards,  
Dianna Mansi Nunez  
NOWLeucadia volunteer

**Petition to Complete A Pedestrian Rail Crossing North of Leucadia Blvd.  
 – At Grandview/Hillcrest or Sanford/Jupiter –  
 Immediately After El Portal And Before Verdi Or Any Other Pedestrian Rail Crossing**

We the undersigned reside, work and/or conduct or do business in the North West Corridor of Leucadia – the *most densely populated area along the tracks within the City of Encinitas*. The tracks bisect our community. We are in urgent and immediate need of a pedestrian/bicycle rail crossing in the North West Corridor to provide safe cross-connection to our beaches, parks and businesses, to reduce the volume, noise and greenhouse gases caused by car traffic, and to work toward eliminating dangerous trespassing along the tracks.

For these reasons we urgently demand the City of Encinitas to prioritize, design, fund and build a pedestrian rail crossing north of Leucadia Boulevard – preferably at Grandview/Hillcrest or Sanford/Jupiter – immediately after the crossing at El Portal and prior to any crossing at Verdi or any other Encinitas location.

The tracks bisect our community. We are in urgent and immediate need of a pedestrian/bicycle rail crossing in the North West Corridor to provide safe cross-connection to our beaches, parks and businesses, to reduce the volume, noise and greenhouse gases caused by car traffic, and to work toward eliminating dangerous trespassing along the tracks.

For these reasons we urgently demand the City of Encinitas to prioritize, design, fund and build a pedestrian rail crossing north of Leucadia Boulevard – preferably at Grandview/Hillcrest or Sanford/Jupiter – immediately after the crossing at El Portal and prior to any crossing at Verdi or any other Encinitas location.

**Petition to Complete A Pedestrian Rail Crossing North of Leucadia Blvd.  
 – At Grandview/Hillcrest or Sanford/Jupiter –  
 Immediately After El Portal And *Before* Verdi Or Any Other Pedestrian Rail Crossing**

We the undersigned reside, work and/or conduct or do business in the North West Corridor of Leucadia – the *most densely populated area along the tracks within the City of Encinitas*. The tracks bisect our community. We are in urgent and immediate need of a pedestrian/bicycle rail crossing in the North West Corridor to provide safe cross-connection to our beaches, parks and businesses, to reduce the volume, noise and greenhouse gases caused by car traffic, and to work toward eliminating dangerous trespassing along the tracks.

For these reasons we urgently demand the City of Encinitas to prioritize, design, fund and build a pedestrian rail crossing north of Leucadia Boulevard – preferably at Grandview/Hillcrest or Sanford/Jupiter – immediately after the crossing at El Portal and prior to any crossing at Verdi or any other Encinitas location.

**Petition to Complete A Pedestrian Rail Crossing North of Leucadia Blvd.  
 – At Grandview/Hillcrest or Sanford/Jupiter –  
 Immediately After El Portal And Before Verdi Or Any Other Pedestrian Rail Crossing**

We the undersigned reside, work and/or conduct or do business in the North West Corridor of Leucadia – the *most densely populated area along the tracks within the City of Encinitas*. The tracks bisect our community. We are in urgent and immediate need of a pedestrian/bicycle rail crossing in the North West Corridor to provide safe cross-connection to our beaches, parks and businesses, to reduce the volume, noise and greenhouse gases caused by car traffic, and to work toward eliminating dangerous trespassing along the tracks.

For these reasons we urgently demand the City of Encinitas to prioritize, design, fund and build a pedestrian rail crossing north of Leucadia Boulevard – preferably at Grandview/Hillcrest or Sanford/Jupiter – immediately after the crossing at El Portal and prior to any crossing at Verdi or any other Encinitas location.

**Petition to Complete A Pedestrian Rail Crossing North of Leucadia Blvd.**  
**- At Grandview/Hillcrest or Sanford/Jupiter -** *Thank you!*  
**Immediately After El Portal And Before Verdi Or Any Other Pedestrian Rail Crossing**

We the undersigned reside, work and/or conduct or do business in the North West Corridor of Leucadia – the *most densely populated area along the tracks within the City of Encinitas*. The tracks bisect our community. We are in urgent and immediate need of a pedestrian/bicycle rail crossing in the North West Corridor to provide safe cross-connection to our beaches, parks and businesses, to reduce the volume, noise and greenhouse gases caused by car traffic, and to work toward eliminating dangerous trespassing along the tracks.

For these reasons we urgently demand the City of Encinitas to prioritize, design, fund and build a pedestrian rail crossing north of Leucadia Boulevard – preferably at Grandview/Hillcrest or Sanford/Jupiter – immediately after the crossing at El Portal and prior to any crossing at Verdi or any other Encinitas location.

Petition to Complete A Pedestrian Rail Crossing North of Leucadia Blvd.  
- At Grandview/Hillcrest or Sanford/Jupiter -  
Immediately After El Portal And Before Verdi Or Any Other Pedestrian Rail Crossing

We the undersigned reside, work and/or conduct or do business in the City of Encinitas. The tracks bisect North West Leucadia. This area is in urgent and immediate need of a pedestrian/bicycle rail crossing in the North West Corridor to provide safe cross-connection to our beaches, parks and businesses, to reduce the volume, noise and greenhouse gases caused by car traffic, and to work toward eliminating dangerous trespassing along the tracks.

For these reasons we urgently demand the City of Encinitas to prioritize, design, fund and build a pedestrian rail crossing north of Leucadia Boulevard - preferably at Grandview/Hillcrest or Sanford/Jupiter - immediately after the crossing at El Portal and prior to any crossing at Verdi or any other Encinitas location.

**Petition to Complete A Pedestrian Rail Crossing North of Leucadia Blvd.  
 – At Grandview/Hillcrest or Sanford/Jupiter –  
 Immediately After El Portal And Before Verdi Or Any Other Pedestrian Rail Crossing**

We the undersigned reside, work and/or conduct or do business in the North West Corridor of Leucadia – the *most densely populated area along the tracks within the City of Encinitas*. The tracks bisect our community. We are in urgent and immediate need of a pedestrian/bicycle rail crossing in the North West Corridor to provide safe cross-connection to our beaches, parks and businesses, to reduce the volume, noise and greenhouse gases caused by car traffic, and to work toward eliminating dangerous trespassing along the tracks.

For these reasons we urgently demand the City of Encinitas to prioritize, design, fund and build a pedestrian rail crossing north of Leucadia Boulevard – preferably at Grandview/Hillcrest or Sanford/Jupiter – immediately after the crossing at El Portal and prior to any crossing at Verdi or any other Encinitas location.

**Petition to Complete A Pedestrian Rail Crossing North of Leucadia Blvd.  
 – At Grandview/Hillcrest or Sanford/Jupiter –  
 Immediately After El Portal And Before Verdi Or Any Other Pedestrian Rail Crossing**

We the undersigned reside, work and/or conduct or do business in the North West Corridor of Leucadia – the *most densely populated area along the tracks within the City of Encinitas*. The tracks bisect our community. We are in urgent and immediate need of a pedestrian/bicycle rail crossing in the North West Corridor to provide safe cross-connection to our beaches, parks and businesses, to reduce the volume, noise and greenhouse gases caused by car traffic, and to work toward eliminating dangerous trespassing along the tracks.

For these reasons we urgently demand the City of Encinitas to prioritize, design, fund and build a pedestrian rail crossing north of Leucadia Boulevard – preferably at Grandview/Hillcrest or Sanford/Jupiter – immediately after the crossing at El Portal and prior to any crossing at Verdi or any other Encinitas location.

**Subject:** RE: Verdi Avenue Pedestrian Rail Undercrossing Project

Hi Jeff – just saw this email. We do not plan on adding parking alongside the road. Yes, there will be a signalized crossing for Highway 101.

**Subject:** Re: Verdi Avenue Pedestrian Rail Undercrossing Project

**[NOTICE: Caution: External Email]**

I was wondering if there were plans to add parking alongside the road (like the situation further north) as I suspect that once the underpass is installed a lot of people will want to park near it (on San Elijo or surrounding streets) so they can cross easily to get to the beach. Also, will there be a crossing on 101 from the west side of the underpass to the beach parking lot? (so that people don't have to dodge the traffic to get across? Thanks, Jeff

[NOTICE: Caution: External Email]

Hi Lauren,

Thank you for sending the plans. They look fine to us. The only thought we have - and you may have addressed it - is that I think we need some kind of pedestrian crossing and perhaps those blinking warning lights like exist at Montgomery & San Elijo Ave. Many people cross Verdi every day (we live on the corner), and the underpass will probably encourage more pedestrian and bike activity. Cars often go pretty fast down San Elijo Ave and it's a bit of a safety issue. Our two bits...

All in all, we think it would be a big plus for the community and we are for it.

Best Regards,

Neil & Clarice Hokanson

Hi Lauren,

We will unfortunately be out of town for the virtual meeting but we are very interested in the subject. Can you email us a copy of the proposed plans?

Thank you!

Neil and Clarice Hokanson

**Subject:** Roundabout Verdi crossing project on coast hwy

[NOTICE: Caution: External Email]

Hi Lauren,

Thanks for calling back so quickly! We discussed putting a roundabout on coast hwy instead of a new traffic light where the new Verdi crossing would be.

Please include this in any future discussions and the CDP (?) report.

Best,  
Chris Swanner

**Subject:** Verdi Ave crossing

[NOTICE: Caution: External Email]

I live in northwest Leucadia and we have been advocating for 16 years for a crossing in our area. It is unfathomable to me that Cardiff will get a SECOND crossing before we get one. Northwest Leucadia (between La Costa Ave and Leucadia Blvd) is the most densely populated and the longest stretch without a crossing. We also have a post office, grocery store, restaurants, public transit, and of course the beach across the tracks. We also have no safe ped or bike transit via Vulcan or la costa Ave to any of these amenities. What does Verdi have across the tracks? The beach. This is a misuse of public funds and is beyond unfathomable that the city is actually moving forward with this.

[NOTICE: Caution: External Email]

Hello-

As a resident on San Elijo, we are greatly concerned with the speeding, which is absolutely out of control. We have emailed and requested help for two years plus. All documented with zero help, only empty promises and more excuses.

The City leadership team continues to ignore the issues impacting safety yet freely spend money they do not have. Please, provide these comments.

Thank you so much.

Hi Dianna – \$9 million was for construction costs to build only. There are other costs for going to construction such as construction management, inspection, contingency, outreach, etc. Those add up to the number you see there. Thank you and I will include the below attachment in the CIP record as requested.

[NOTICE: Caution: External Email]

Good morning Lauren,

At the recent CPP meeting for the Verdi Crossing, I believe you indicated that the project's projected cost would be around \$9 million dollars. The CIP worksheets project a number much greater than this. Can you clarify?

Also, I would like to request that the attachment below be included in the CIP public record.

Thank you very much.

Best,  
Dianna Mansi Nunez
