

# COMMUNITY SURVEY RESULTS

The City of Encinitas conducted a city-wide survey from May to June 2019. The survey was administered online and at Open House #1 (May 2019). Survey participants included:

- » 678 Residents
- » 16 Businesses

## CORRIDOR USAGE

- » Approximately half (51%) of all residents cross the railroad tracks daily
- » 92% of residents walk or bike across the tracks at least some of the time
- » 74% of residents cross the tracks at unmarked locations at least some of the time
- » 57% of businesses say that new or improved crossings would be extremely or very valuable for their business

## EVALUATION CRITERIA

The highest-ranked criteria for assessing new crossing locations are:

- » Improving safety
- » Reducing traffic/pollution

## NEW CROSSING LOCATION PRIORITIES

The highest-ranked locations for potential new crossings are:

- » Grandview St/Hillcrest Dr
- » Sanford St/Jupiter St
- » Birmingham Dr
- » Marcheta St/Orpheus Ave
- » Phoebe St/Glaucus St

## EXISTING LOCATION UPGRADES

The highest-ranked locations to prioritize upgrades to existing crossings are:

- » Leucadia Blvd
- » La Costa Ave
