#### FOR IMMEDIATE RELEASE

**Encinitas Seeks Input to Help People Get Where They Need to Go**

ENCINITAS, Calif.; Oct. 21, 2016 – The City of Encinitas will be seeking public input at a number of pop-up workshops in over the next eight days. The workshops, located throughout the City, will gather community input on the improvements that are needed to make it easier and safer for pedestrians, bicyclists, transit riders, and others to get around the City of Encinitas. Pop-up workshops will be informal and the public is invited to stop by anytime for a five-minute discussion. Kids welcome!

The pop-up workshops are part of the City of Encinitas Coastal Mobility and Livability Study. The study will examine:

- How people travel within the City;
- What types of changes are needed; and
- How the corridor can be more livable – for example, how to quiet train noise and enhance community character.

“Engaging the community is critical to the success of Coastal Mobility and Livability Study. We want to hear from and talk with everyone that is interested in the future of the City,” said Manjeet Ranu, acting director of planning.

Public input will be used to inform development of draft concepts, which will be presented for public feedback in another round of workshops in early 2017.

Community members unable to make the pop-up workshops are encouraged to voice their opinion and provide input via the [Coastal Mobility & Livability Study PlaceSpeak topic discussion](#).

### About City of Encinitas

Located along six miles of Pacific coastline in northern San Diego County, Encinitas has an approximate population of 60,000 and is characterized by coastal beaches, cliffs, flat-topped coastal areas, steep mesa bluffs and rolling hills. Our city was incorporated in 1986, drawing together the communities of New Encinitas, Old Encinitas, Cardiff-by-the-Sea, Olivenhain and Leucadia.
