

FACT SHEET

UPDATED: 08.21.23

PROJECT STATUS

City Council approved the street list in April 2023 and granted authorization to advertise the project for bids.

The construction project was awarded to Eagle Paving Company and construction management will be performed by Reddy Engineering, Inc. Construction will begin in October 2023 and continue through the January 2024.

PROJECT BUDGET

The project construction cost for this year's paving program is approximately \$3.9 Million. Funding for the program is provided through TransNet Funds, SB1 (Gas Tax) and the City's General Fund

PROJECT LOCATION

A complete list of the streets included in the FY22-23 program can be found on pages 2 - 4 of this document.

FY22-23 Annual Paving Program (CS23A)

Maintaining quality transportation infrastructure for Encinitas

ABOUT THE PROJECT

Each year, the City's CIP Division uses a pavement management software to analyze Encinitas' 168 miles of maintained roadway to identify which ones are in need of resurfacing. The streets are selected based on age, condition, prior treatments, proximity to other street segments scheduled for resurfacing and greatest need. Additionally, 27 curb ramps will be reconstructed along 9 streets to bring them up to ADA compliance. A complete list of the streets included in this year's program is available on the following pages.

Street resurfacing will require temporary lane reductions and road closures during construction. The City and its contractor will work to minimize any impacts or inconvenience to the public and maintain access to homes and businesses throughout construction. Businesses and residents on the affected streets will be notified through signage, door hangers, and updates on the City website and social media channels.

The annual paving program is part of the City's ongoing commitment to maintaining quality transportation infrastructure through consistent maintenance, as outlined in the City's strategic plan.
