CITY NEWS

The next phase of the Leucadia Streetscape Segment C West project will begin construction in late Fall 2023. New improvements between Jupiter Street and La Costa Avenue include wider sidewalks, dedicated bike lanes, landscaping, irrigation, streetlights, storm drain systems, parking pods, pedestrian trails, crosswalks, asphalt paving, traffic striping, street furniture including benches, chairs, tables, bike racks, and trash and recycling bins, two roundabouts at Grandview Street and Jupiter Street, and a pedestrian traffic signal crossing at Avocado Street.

During the Leucadia Streetscape Segment C project, the City will also install a large storm drain system to provide additional storage capacity and new stormwater treatment during rain events. This North Coast Highway 101 Drainage Improvements project will reduce the frequency and intensity of flooding that is common on the 101.

Construction of both projects is anticipated to be completed in Winter 2026. The Leucadia Streetscape team continues to engage local businesses to provide information about upcoming work and help address their concerns.

For more Leucadia Streetscape project information, visit www.EncinitasCA.Gov/Streetscape.
