

City of Encinitas

## Segment C

### FAQ - Businesses

#### 1. What are the specific improvements being made during Segment C West construction?

The following map outlines the various construction activities and improvements that will be built during Segment C West.

#### 2. Will people still be able to walk on the sidewalk and access businesses during construction?

Yes. Access to the businesses will be provided by the contractor during construction activities.

#### 3. Will restaurants have outdoor seating during construction?

Permits allowing outdoor seating located in the street right of way expire on January 1, 2024, per the Encinitas city council. Any construction activities in these areas are not anticipated to begin until Spring of 2024. It appears that no restaurant seating will be affected by the construction of this project until Spring 2024.

**4. Will customers still be able to access parking lots during construction?**

During construction, access to driveways and businesses will be maintained, but the community can expect noise, dust, lighting, periodic lane and road closures, and large construction vehicles in the area.

**5. Where will the new drainage infrastructure be?**

The new drainage improvements will extend from Jupiter Street to La Costa Avenue. There will be drainage infrastructure construction on the east side of NCH 101 and on the west side with the streetscape surface improvements.
